Certificate of participation and letter of appreciation

To whomsoever it may concern:

Harsh Singh worked with my lab on popular science writing for AI. He wrote one article on Medium, "Was doggedness part of AI success story?". This article was well received. Here is the hyperlink of it: <https://medium.com/@sukantkhurana/was-doggedness-part-of-artificial-intelligence-success-story-da5887647a84>, I would like to issue this certificate to Harsh as an appreciation for this short collaboration with my team. I wish him well for future academic and professional success.

Best wishes,

Sukant Khurana, Ph.D.

Scientist Fellow CSIR-CDRI
